PROFESSIONAL SUMMARY

Java Developer with hands-on experience in developing and maintaining enterprise-level insurance systems. Skilled in backend development, API integration, database optimization, and system customization using Java and related technologies. Experienced in working within SDLC environments, collaborating with cross-functional teams, and delivering scalable, high-performance solutions.

PROFESSIONAL EXPERIENCE

Pioneer Insurance & Surety Corp. – Makati City, Metro Manila

Java Developer (2024 – Present)

- Design, develop, and maintain enterprise-level Java applications for core insurance systems.
- Implement complex business logic based on functional requirements within enterprise insurance systems and configurable platforms.
- Debug, test, and troubleshoot application issues, providing timely resolution and root cause analysis.
- Optimize SQL queries and application performance to improve system efficiency and response time.
- Develop, integrate, and maintain RESTful APIs and backend services for business processes and third-party integrations.
- Work with relational databases (e.g., Oracle/SQL Server) for data retrieval, manipulation, and reporting.
- Ensure compliance with coding standards, security guidelines, and internal development processes.
- Prepare and review technical documentation including API specifications, system flows, and database mappings.
- Collaborate with cross-functional teams (QA, BA, DevOps) to deliver high-quality software solutions.

SKILLS

Programming & Backend: Java, Spring Boot, Spring MVC, Hibernate, RESTful APIs, SQL, PL/SQL

Frameworks & Platforms: IDIT, Sapiens Digital Suite, Sapiens ACE, Sapiens JFC

Database: Oracle, MS SQL Server, MySQL

Dev Tools: Git, Jenkins

Web Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP

Concepts & Methodologies: SDLC, UML (Structural & Behavioral Diagrams), Object-Oriented Programming

Other Skills: Web Development, Data Annotation, AI Model Development (YOLO)

EDUCATION

Cavite State University – Don Severino de Las Alas (Main) Campus – Indang, Cavite

August 2018- August 2023

Bachelor of Science in Information Technology

- **Academic Scholar:** (Academic Year 2018 – 2023)
- **Relevant Coursework:** Programming (Java, C++, PHP), Unified Modeling Language (UML Diagrams), Adobe Photoshop, SDLC Methodologies (Software Development Life Cycle), Web-development Tools, Information Assurance and Security, MySQL, Capstone Project (Web-based Contribution Monitoring System)
- **Capstone Project:** Development of Web-based Contribution Monitoring System for Amadeo National High School Teachers and Employees Club. (HTML, CSS, Bootstrap, Javascript, PHP, SQL, XAMPP)
 - **Account Management System** – Managing accounts for the system
 - **Information System** – Displaying accurate data, and report generation
 - **Record Management System** – Managing contribution records

CERTIFICATION

- Sapiens API Composition Engine – July 2025
- Sapiens Journey Forms Composer – July 2025
- IDITSuite Development Program – May 2025
- Advanced MS SQL T-SQL Training – June 2025
- Sapiens Docs Program – May 2025

AWARDS & RECOGNITION

- Employee of the Year – Pioneer Insurance (December 2025)
